

## JENIX, DS-103 SPEC.

<b>ITMES</b>		<b>DS-103 (Height, Weight auto measuring system)</b>
Height measuring range		90 ~ 200cm (measuring unit: 0.1cm)
Height measuring method		Optical linear encoder
Weight measuring range		10 ~ 200kg (measuring unit: 0.1kg)
Weight measuring method		Load cell
Tolerance		Height: $\pm 0.1\text{cm}$ , Weight: $\pm 0.1\text{kg}$
Adaptor	Input	AC 110V/220V, 50-60Hz, 1A
	Output	DC 12, 2A
Display		Digital Value on FND segments
Material		Aluminum
Size		410(W) $\times$ 550(L) $\times$ 2190(H)
Product weight		12kg
Temperature range		10°C ~ 40°C
Measuring order		Height, Weight and BMI simultaneously
Measuring time		5 seconds (for measurement of height and weight)
Device for leveling		Installed (5pcs of rubber headed screws, a water level)
Error compensasation		User's operation (refer to user's manual)
voice output		Only Korean surpportable (Remain turn-off when overseas use)
Print out		DS-103 with Printable verson (printer is optional)
Fatness Formula		Fatness (WHO standard), BMI (KMA standard)
Features		Easy to use, Excellent stability and design
